For localized adiposities
LOCALIZED ADIPOSITY

What is it?

L.A. are subcutaneous adipose tissue accumulations in specific anatomical areas that alter body silhouette

*Amore R et al, Plastic and Reconstructive Surgery* 2016

The optical microscope can clearly indicate the hypertrophy and hyperplasia of the adipose tissue in absence of pathological characters.
Localized Adiposity
Classification

Hormone-related, sex-related, can be hereditary. Not involved in the metabolism and not disappear slimming. Once removed do not reappear.

- **Antilipolytic α2-adrenergic receptor**

Linked to diet and lifestyle
Improve with weight loss

- **Lipolytic β-adrenergic receptors**

Resulting from drug treatments (ARVs), diseases (Cushing), or idiopathic.

**PRIMARY**
- INNER THIGHS
- CULOTTE DE CHEVAL
- INNER KNEE
- FLANKS

**SECONDARY**
- ABDOMEN
- BACK ROLLS
- DOUBLE CHIN
- ARM

**PATHOLOGICAL - IATROGENIC**
- BUFFALO HUMP
- LIPOMAS
- GYNECOMASTIA

**OTHERS (POST OP, POST TRAUMA)**

*Smith SR et al. Metabolism 2001 50(4),425–435

Emulsification effect (micelles)
**DesoFace**

Its special composition allows to treat successfully and safety localized adiposities of neck and face.

**Sodium deoxycholate** (0,5%) emulsifies adipocytes  
**Caffeine** promotes lipid catabolism  
**Equisetum** has a decongestant effect and draining.
**DesoFace**

**Jaw-line**
3 sessions - ½ vial x session

**Double chin**
4 sessions - ½ vial x session
**DESOFACE**

**Double chin**

5 sessions - ½ vial x session

**Lower third**

4 sessions
1 vial x session
The optimal concentration of sodium deoxycholate (1.25%) allows to effectively treat all the localized fat deposits of the body, primary, secondary and pathological.

Flanks
3 sessions - 3 vials x session

Flanks & Back rolls
4 sessions - 4 vials x session
Abdomen
4 sessions - 3 vials x session
**DesoBody**

**Siddlebag Thighs**
- 5 sessions
- 4 vials x session

**Inner Knees**
- 4 sessions
- 2 vials x session
**DESOBODY**

Multiple lipomatosis
2 sessions - 2 vials x session

Buffalo hump
3 sessions - 1 vial x session
